

CARTRIDGE COLLECTORS

KEEPING
YOUR FACILITY
DUST-FREE
CAN BE GOOD
FOR YOUR
EMPLOYEES
& YOUR
BOTTOM LINE.

Industrial dust
collectors not only
clear the air but
also improve:

- Employee efficiency
- Increase employee retention
- Help ensure a safe working environment
- Reduce equipment maintenance costs

Air quality
control goes
beyond just
having a clean
workspace.

A.C.T. Dust Collectors offer the
ultimate in air filtration.

Whether your application
includes welding smoke,
grinding dust, cutting table
fume, shot blasting, sanding,
thermal spray, coating, bulk
powder handling or any
process that generates dust,
we have the solution.

Our high-performance systems
are built with features to stand
up to a rugged manufacturing
environment.

The **downward airflow
technology** maximizes airflow
in the collector to assist dust
separation. With capabilities up
to 100,000 CFM and more, we
have the system to maximize
your air filtration.

THE LEADER IN AIR FILTRATION

STANDARD FEATURES & AVAILABLE OPTIONS

COLLECTOR DESIGN	STD	OPT
Heavy Duty 7 and 10 Gauge Mild Steel Construction	X	
Venturi-Assisted Pulse Filter Cleaning System	X	
ACTion-Lock Quick Release Filter Doors	X	
Multiple inlet options for versatility	X	
A.C.T. Nano-Elite Nanofiber Cartridges	X	
Dust Drawer/Tray Bottom Material Outlet		X
Stainless Steel Construction		X
High Temperature Construction		X
Explosion Protected Models		X
High Temp (MERV 13) Filter		X
Chamber and Exhaust Silencers		X
Air Management Modules		X
Steep-Sided Hopper		X
Single Discharge Hopper for Multi-module Collectors		X
Service Platform (OSHA compliant)		X
Sprinkler Coupler		X
Alternate Filter Media Options		X
After Filter Housing		X
HEPA/ASHRAE Filters		X
Damper Pack		X
Bag-In/Bag-Out Kit		X

PAINT SYSTEM	STD	OPT
Primed Interior	X	
Multi-Coat Paint Finish	X	
Custom Color		X
Epoxy Coating		X

HOPPER DISCHARGE	STD	OPT
Drum Cover and Hose	X	
Slide Gates		X
Rotary Valves and Transitions		X
Screw Conveyors		X

ELECTRICAL CONTROLS, GAUGES & ENCLOSURES	STD	OPT
Control Box w/Digital Timer in NEMA 4 Enclosure	X	
Control Panel with Magnetic Starter and Digital Timer Control		X
Control Panel with Variable Frequency Drive (VFD) and Digital Timer Control		X
Custom Panels		X
Solenoid Heater Kit		X

WARRANTY	STD	OPT
10 Year Warranty	X	

Perhaps the most popular feature is our exclusive
ACTion-Lock Quick-Release filter door.

Only aluminum and stainless steel parts are used in the construction of the door cam and mounting brackets for maximum durability in any environment. Simply set the door in place and pull the handle down to lock the cam.
Lift the handle for quick release.

The simple and secure design is widely considered as the best in the industry. Using stainless steel brackets, cross rod and a cast aluminum handle, it will stand up to the toughest environments, both outside and inside your facility. There are no knobs to turn, no moving rails, no interior yokes or threads to catch, or holes to center up — just drop in the door and clamp down. Lift the handle and you're holding the best door the industry has ever seen.

The operation of our A.C.T. dust collectors is simple and uses proven technology.

The industry best **A.C.T. Nano-Elite high efficiency cartridge filters** remove 99.9% of the particulate from the air stream. They carry a MERV 15 rating (best in the industry).

The cleaned air is then directed to the location of your choice, either returned to the facility or exhausted to the environment.

DIMENSIONS

EXPERIENCE, SERVICE & SUPPORT

- Technical expertise and factory support
- Ready-to-ship parts and filters
- Numerous successful installations worldwide

CUSTOM ENGINEERING

- Systems tailored to your specific needs
- Professional design & engineering experts
- Application assistance

Dimensions are not to be used for construction.

Certified drawings available upon request.

Each of our dust collectors is equipped with a **venturi-assisted reverse-pulse filter cleaning system** and a digital, solid-state pulse control panel. The controls utilize an on-board pressure switch allowing on-line, on-demand and down-time cleaning. A weatherproof housing protects the controls for a long, trouble-free life.

STANDARD FEATURES:

- Fully welded heavy construction main unit, constructed of 7 and 10 gauge carbon steel
- Designed, engineered and manufactured in the U.S.
- Exclusive ACTION-Lock Quick-Release filter door
- A.C.T. Nano-Elite Nano-Fiber High-Efficiency cartridge filters with 254 square feet of media each
- Venturi-assisted pulse clean system with premium Goyen® diaphragms and solenoids
- Exterior rail cartridge supports prevent pulse clean obstruction
- Downward airflow technology assists dust particle separation
- Integral lifting lugs
- Material discharge with sealing drum lid
- Digital, solid State Pulse Control with differential pressure switch for fully automatic cleaning
- Five-year materials and craftsmanship warranty

OPTIONAL FEATURES:

- Abrasive inlet plenum
- Complete line of motor/blowers
- Exhaust silencers and/or dampers
- Alternate filter media options
- Rotary airlocks
- Screw conveyors
- Explosion vents
- Solenoid heater kit
- Custom paint color or coatings
- Multi-module hoppers
- Steep-sloped hoppers
- Afterfilter housings
- Bag-in/bag-out design for hazardous dust
- Stainless steel construction
