

MICROWELD G SERIES BUTT WELDERS • 3 MODELS

G SERIES BUTT WELDERS

GC • GS • GT FOR COPPER • ALUMINUM • STEEL

Models “GC”, “GS”, and “GT” have all the features commonly associated with other MicroWeld butt welders. Ease of operation, heavy duty construction and unsurpassable weld quality have all been engineered into these units. The G Series includes Model GC for welding copper and aluminum wire, and Models GS and GT for steel wire.

STANDARD FEATURES FOR ALL MODELS INCLUDE:

- Sensitive Straight Slide Movable Welding Headpiece
 - Changeable Welding Dies and Clamp Shoes
 - Safety Flash Guards
- Annealing devices for all models are available.

For more information on G Series welders or the wide range of over 50 models, contact MicroWeld.

Quality and productivity backed with over 80 years of experience, service and support. These are some of the reasons why the MicroWeld name is respected all over the world.
