FREIGHT GUIDELINES

MACHINES READY TO SHIP

Smaller Ironworkers & Cold Saws

ALMI Pipe Notchers & Grinders

Larger Ironworkers

SUP & GAA Upcut Saws

SCOTCHMAN INDUSTRIES ships weekly using a selection of LTL carriers that are reliable with our products. Machines and accessories that are too heavy or too large for standard package shipments (UPS or FEDEX) require transport via truck freight.

Commercial address delivery rates are lower than residential, school, government, or limited access facilities. **Businesses located within residential areas or remote locations incur additional fees.** If no one is available to unload/receive shipment or the area is not accessible and the truck cannot unload on first attempt, re-delivery fees apply. Truck shipments require consignee to have means to unload from truck upon arrival (dock & forklift). Driver is not required to assist with unloading, unless liftgate delivery service is secured.

Accessorial service options are available for added fees. Most frequent service requested are delivery appointment required and liftgate delivery service. Liftgate service- driver responsible for lowering freight to ground level (weight limits do apply) where responsibility transfers to customer to move.

For customers without means to unload at destination, pick-up at carrier's terminal may be an option. **Call, 605-859-2542, for further assistance on available truck freight options that best fit your needs.**

INSPECT EACH MACHINE BEFORE ACCEPTING
